

¡Hola! Bienvenidos a la clase de español con la señorita Eichenlaub:)

→ I am passionate about inspiring students to open their minds to the different cultures around them. I am excited to relate the subject of another language to students' personal lives through the use of real communication using authentic materials and technology. In Spanish class, students will have the opportunity to use the language to engage in interpersonal communication, understand words and concepts presented in Spanish, use the language to present information to an audience, and compare their own culture to that of the cultures and civilizations in Spanish-speaking countries.
